Appendix V.

[Vide answer to Starred question No. 1332 asked by Sri T. R. Ramamirtha Thondaman at the meeting of the Legislative Assembly held on 22nd August 1961, page 549 supra.]

A.—(a) *Work of Extension Officer (Industries) in block area.*

(i) The immediate task of the Extension Officer (Industries) is to study and assess the industrial potential of a block with respect to raw material, spareman power, consumption pattern, potential and projected demand and skill available.

(ii) On the basis of the survey, he will plan what industries can be developed in the block to provide employment to unemployed and part-time employment to under-employed and draw up schemes, in order of priority to be implemented with the resources available from year to year.

(iii) Simultaneously with the survey work, which is likely to take some time for completion, he shall take up for implementation of suitable schemes depending on the concentration of artisans and in accordance with available resources under the development programme of the various All-India Boards, the Khadi and Village Industries Commission and the State Government.

(iv) He shall supervise and inspect the existing training centres, Industrial Co-operatives and other Government-managed units for industries in the block.

(v) He shall organise industrial co-operatives amongst the rural artisans and render all possible assistance to them.

(vi) He shall render marketing assistance to the industrial units in the block and for that purpose he will do the following things amongst others considered necessary :—

(*a*) To collect and cater marketing intelligence, particularly taking into consideration the projected demand of the area generated by various development activities.

(*b*) To arrange with the mobile vans of the National Small Industries Corporation and State Vans for handloom products and Sales Depots and emporia, etc., for sale of the products of the block.

(*c*) To secure orders from Government concerns under the store purchase policy of the Government of India and the State Government with price preference to cottage industries products, through the department concerned.

(*d*) To arrange exhibition of the products of the block in fairs, festive occasions, etc., for promotion of sales of products of cottage industries.

[22nd August 1961

(*e*) To arrange pasting of posters and charts in prominent places as may be received from time to time from various agencies advertising the cottage and small industries products.

(*f*) To maintain records of the retail dealers and whole-salers and help establishing trade relations with them for the industrial units.

(*g*) To organise sales depots depending on resources available.

(*h*) To mobilise public opinion for consumption of products of cottage and small-scale industries.

(vii) To render credit facilities to the individual enterprise and industrial co-operatives—from the Co-operative Banks and the State Government. For that purpose he will—

(*a*) assess the credit requirements.

(*b*) Investigate into the applications under State Aid to Industries Act and Co-operative Societies Act as and when necessary.

(*c*) Supervise the proper utilization of loans directly and also through help of Village Level Workers.

(viii) To render assistance for procurement of raw materials and particularly controlled commodities at reasonable price.

(ix) To render technical assistance. It is not intended that he will always render technical guidance himself. His main function will be to extend the latest technical know-how.

In this connexion he will specially do the following things:—

(*a*) To ascertain the requirements of refresher training for village artisans and basic training in various trades and make proposals.

(*b*) To arrange for demonstration of improved technique by the mobile vans of the Small Industries Service Institute and stationing of mobile vans on peripatetic training parties.

(*c*) To organise training centre for rural artisans and assist in the matter of selection of candidates for training in outside institutions as well as in the training centre of the Block.

(*d*) To establish contact between the organisation of trained artisans and permanent training institutes in the State for getting solution of their problems

(*e*) To maintain liaison with the research institutes through his Department and expand the latest knowledge to village artisans.

22nd August 1961]

(f) To look after the follow up programme of the trained artisans by organising co-operatives amongst them and render necessary assistance for obtaining credit, tools and equipment, raw materials and selling of finished goods.

(xi) To arrange supply of sewing machines and other tools and machines under the hire-purchase system of sale introduced by the National Small Industries Corporation.

(xii) To organise handicrafts production units for the women and arrange for training for introduction of new crafts amongst them.

(xiii) To create an industrial bias amongst the villagers with stress on the importance of cottage industries and for that purpose to organise village leaders and artisans training camp and also to create a climate for consumption of village industries products locally with the active participation of village leaders and panchayats.

(xiv) He shall work in a team with all other Extension Officers in the block and with the co-operation of the village level workers under the leadership of the Block Development Officer for efficient discharge of his functions.

(xv) To maintain up-to-date records of all types of industrial units, whether Government managed, privately owned or their production volume, market condition and ensure regular submission of comprehensive quarterly and annual progress reports according to pro forma supplied in order to obtain a correct picture of the total development of industries in the block.

(xvi) He shall co-ordinate the development of cottage and small scale industries in the block and he shall be an agent at the block level for programmes of industries department, State Khadi and Village Industries Board and any other department responsible for development of cottage and small scale industries in the State.

(xvii) To do such other things as may be assigned to him and may be incidental or conducive to the industries programme in the Block.
